

3-2-87
12.3.8 v. 4

ASH GROVE CEMENT WEST, INC.

Inter-Office Memorandum

Date 02 March 1987

To Jim Post

From Ken Rone

Copies to Erik Voldbaek

Activity report
Week Ending 3/1/87

- ✓ 1. Visited Lake Oswego. Inspected baghouses and hot air combustion system. Dust collector 44-880 seems appropriate for slag drying. Combustion system is appropriate for future use on a mill mounted drying chamber. It can provide 60% of the needed BTU input.
- ✓ 2. Constuction has begun on the Tilbury Cement Seattle Terminal located at 5301 East Marginal Way South.
3. Completed asbestos removal from finish mill ducting. Visited by PSAPCA inspectors to assure removal was handled properly.
4. Mrs. Bloxom will resign on 3/6 to pursue a better opportunity. Beginning interview process to select a replacement.
- ✓ 5. Will rewire our crew change house to bring it up to electrical code. Anticipate \$5,000 expenditures.
6. Moving storage shed to another location and paving a new parking lot in anticipation of ready mix plant.
7. Continuing to crush masonry rock.
- ✓ 8. Two safety committee meetings, no accidents.
9. No visitors.
